ORIGINAL

Dear members of the Arizona Corporation Commission:

As a small business owner, I always aim to do whatever is best for my shop. Lately, my high energy bills have been cutting into my profits, and as a result, I am losing hard-earned money. It is difficult to grapple with as my energy payments are harming my business, but not using the air conditioner is not an option.

I know a bit about the Energy Efficiency Standard, and it seems like the best way to deal with this issue. I believe that it will lower costs and boost energy efficiency, a true win-win situation. I really hope that you will implement the Standard and recognize its value.

With Regards,

Arizona Corporation Commission
